Software Developer

Web Performance | User Interface Design | Database Management

SUMMARY OF QUALIFICATIONS

- Passionate in crafting user-friendly software solutions with a unique background in information technology and healthcare sectors; Currently a student of software engineering technology, specializing in Health Informatics, while holding a Bachelor of Science degree in Nursing
- Experience spans the SDLC, from initial concept, design, meticulous testing, and deployment
- Extensive knowledge in designing interfaces that prioritize user orientation and usability
- Knowledgeable of best practices and the critical importance of data security and privacy
- Outstanding analytical and research capabilities, which have been sharpened through practical experience and academic and laboratory settings
- Proven track record as an excellent problem-solver and analytical decision-maker
- Works collaboratively as part of a team or independently, consistently delivering high-quality work

TECHNICAL SKILLS

PROGRAMMING: C#, Python, Golang, JavaScript, PL/SQL, SAS, HTML5, CSS3

TOOLS: VS Code, Visual Studio, Jira, GitHub, MS Office

FRAMEWORKS: Node.js, Express.js, Bootstrap, MongoDB **OPERATING SYSTEMS:** Windows, Oracle, Linux/Unix, VSM Centos 7

EDUCATION

Health Informatics Technology (Co-op) Advanced Diploma

Jan. 2023 - Present

Graduated Dec. 2022

Centennial College, Toronto, ON

Focus: Web Application Development
Software Requirements Engineering
Structures of HCIS

Web Interface Design Unix/Linux OS Database Concepts Data Warehousing & Data Mining Client-Side Web Development Software Systems Design

Bachelor of Science - Nursing Science

Ambrose Alli University, Edo State, Nigeria

SELECT PROJECTS

Real Estate Website - HTML5, CSS3, JavaScript

• Developed a real estate website, creating the front-end user interface and design, ensuring it was visually appealing and user-friendly. Implemented HTML to structure the content, CSS to style the layout, fonts, and colors, and JavaScript to add interactivity and dynamic features.

Bank System Development - C#, Object-Oriented Programming (OOP)

Designed and built a mock bank system using C# with a focus on Object-Oriented Programming (OOP) principles. Implemented classes for accounts, customers, transactions, and employees, ensuring modularity and code reusability. Resulted in a robust, and well-structured solution for efficient financial operations and customer account management.

Bug Smasher Game - JavaScript, HTML5/CSS3

• Designed and built a JavaScript-based game, applying programming skills to create an interactive and enjoyable gaming experience. Players can engage with the game by "smashing" virtual bugs, developed through proficiency in JavaScript and game design.

ADDITIONAL WORK EXPERIENCE

Store Associate Dollarama, Toronto, ON Feb. 2023 - Present

- Process transactions, maintain store appearance, and provide customer service in a high-volume store.
- Demonstrate ability to resolve customer issues and work independently with minimal supervision.
